HIGH COURT JUDGEMENT UPDATE AND CHANGES TO THE BOARD

High Court Judgement Update

Shareholders are referred to the Stock Exchange News Service (“**SENS**”) announcement released on Thursday, 7 November 2024, which outlines the details in Part A and Part B of the urgent application lodged on 6 November 2024 in the High Court of South Africa, KwaZulu Natal Local Division, Durban (“**the Court**”), under case number D13702/2024, by RGS Group Holdings Limited (“**RGS**”), against, inter alios, the Company, the Business Rescue Practitioners (“**BRPs**”) (“**the Application**”), the Vision Parties, the Lender Group, Mohini Singari Naidoo (t/a Powertrans Sales and Service).

In the application, RGS has sought:

- **In Part A:** to interdict the implementation of the adopted business rescue plan, particularly the Vision Asset Transaction, which involves the sale of THL's assets and business to the Vision Parties. This interdict is sought pending Part B of the application. Additionally, RGS seeks the disclosure of a range of information from both the BRPs and the Vision Parties.
- **In Part B:** it is sought to set aside the Company's business rescue plan, which was approved and adopted by the requisite majority of creditors on 11 January 2024.

The Court has dismissed Part A of the Application to interdict the implementation of the adopted business rescue plan of THL and has ordered RGS to pay the costs of the Application on the highest scale, including the costs of two counsel where employed. In its ruling, the Court found that RGS had not demonstrated grounds for urgency, or grounds to justify the interdict sought by RGS.

Part B of the Application was not before the Court for determination. However, the Court granted RGS leave to supplement its founding affidavit and *inter alios*, the BRPs and THL were granted leave to deliver further affidavits in response in relation to Part B of the Application that is pending for determination by the Court at a later stage, that is, if RGS chooses to proceed with Part B of its Application.
